
The Six Pack

The **SIX PACK** is a contemporary, free-standing unit which holds six wall games. Where space is limited the **SIX PACK** can be arranged around an existing column or three games can form a semi-circle against a wall.

The light weight module is constructed of aluminum and formica and bolts together in a matter of minutes. Wall games require no special modifications, they can be used with the **SIX PACK** or separately.

Topped with attractive, illuminated graphics which identify each game, the **SIX PACK** is hard to miss!

ELCON INDUSTRIES DOES IT AGAIN . . . by offering five completely different video games in three cabinet styles.

Of course, cabinets do not earn money, the important thing is how good the game itself is And we've picked all the WINNERS available today!

The hit of the 1977 Fall Tradeshows, the fabulous **HIGHJUMPERS** The object of this imaginative game is to bounce a jumping clown off a springboard and in turn, propel another clown to the top of the screen where he bursts three rows of ballons The higher the clown jumps, he breaks more balloons and attains a greater score This is a one or two player game and the number of jumps is operator adjustable (Not available in console)

VIDEOBOWL True—to—life 'regulation' bowling for one or two players This realistic game features authentic sound effects, excellent animation and a beer frame feature Everyone loves to bowl Imagine this game in the lounge of a bowling alley (Not available in console)

BLOCKBUSTER Five different games in one cabinet have proven a real hit 1, 2 and 4 can play Free games can be won when playing Blockbuster and Magic Squares Available in three superbly crafted cabinet styles A real copper laminate top is available on the octagon style (Optional)

CASINO This winning game plays Blackjack with up to four players simultaneously The same rules apply as in real life Blackjack

TV PIN BALL This fun game resembles a real pinball machine right down to the authentic sounds one or two can play Adjustable scores, free game option, etc

BRICKYARD. A fast moving game with novel sound effects Requires quick reflexes. Points per game (1 to 7), are operator adjustable. Wall cabinets - 2 players only Cocktail and console - 2 or 4 players

Elcon Industries has been manufacturing video games for over four years We operate our own design and production facilities for the computer 'brain' which operates the games and the quality of our cabinetry is unsurpassed

The wall cabinet is a brand new concept and we feel it fills a gap which may open many new locations where cocktail tables or consoles are impractical The super compact cabinet is only 23" wide by 32" high and a scant 14½" deep and still contains a full size video game with 19" monitor Most importantly, the actual game is completely contained in the door and all doors and games are interchangeable in minutes If you own a set of five different Elcon Industries games you can rotate the games from location to location very easily
